If you haven't been to a corn maze or Fall Harvest festival at a farm, you don't know what you're missing...and you may not know what to expect! The Wooden Nickel is a working farm. If it rains, there will be mud. Open-toed shoes or shoes that cannot be easily washed are not recommended.

There are 3 types of Corn Maze at the Wooden Nickel Buffalo Farm.

1. Daytime maze-This is perfect for families and small children, and cold days! The corn is a variety that grows about 6-8 feet tall and creates a thick maze. "Buffalo Dan" used a zero-turn mower equipped with GPS to cut the pattern of paths into the field. The pattern is only visible from the air, but on the ground it is a great maze. It should take anywhere from 30 minutes to an hour to find your way out.

2. Mini maze-If you don't have the time or physical stamina to go through the entire maze, we have a "MINI MAZE" within the larger maze. This is ideal for families with small children, Seniors, or strollers.

3. Nighttime maze-Same as a daytime maze...but at night with flashlights! A slightly scary but fun experience. Very popular with teenagers! If you forget your flashlight, no worries, we rent them for \$1 plus refundable deposit.

Look for discount coupons from your local Lions Club or get on our mailing list. A portion of proceeds will benefit the Wounded Warrior Project.

Navigate through 6-acres of corn-fusing trails & stop at each of the 16 stations throughout the Maze.

The fun doesn't stop once the sun goes down! Try to navigate the Maze armed with only a flashlight while avoiding other Corn Stalkers.
